

# Iowa COVID-19 Vaccine Doses Administered Report

## 1/18/2021

COVID-19 Vaccine: Total Doses Administered in Iowa:

142,614

COVID-19 Vaccine: Doses Administered to Iowa Residents:

134,919

COVID-19 Vaccine Series Initiated:

117,406

COVID-19 Vaccine Series Completed:

12,604

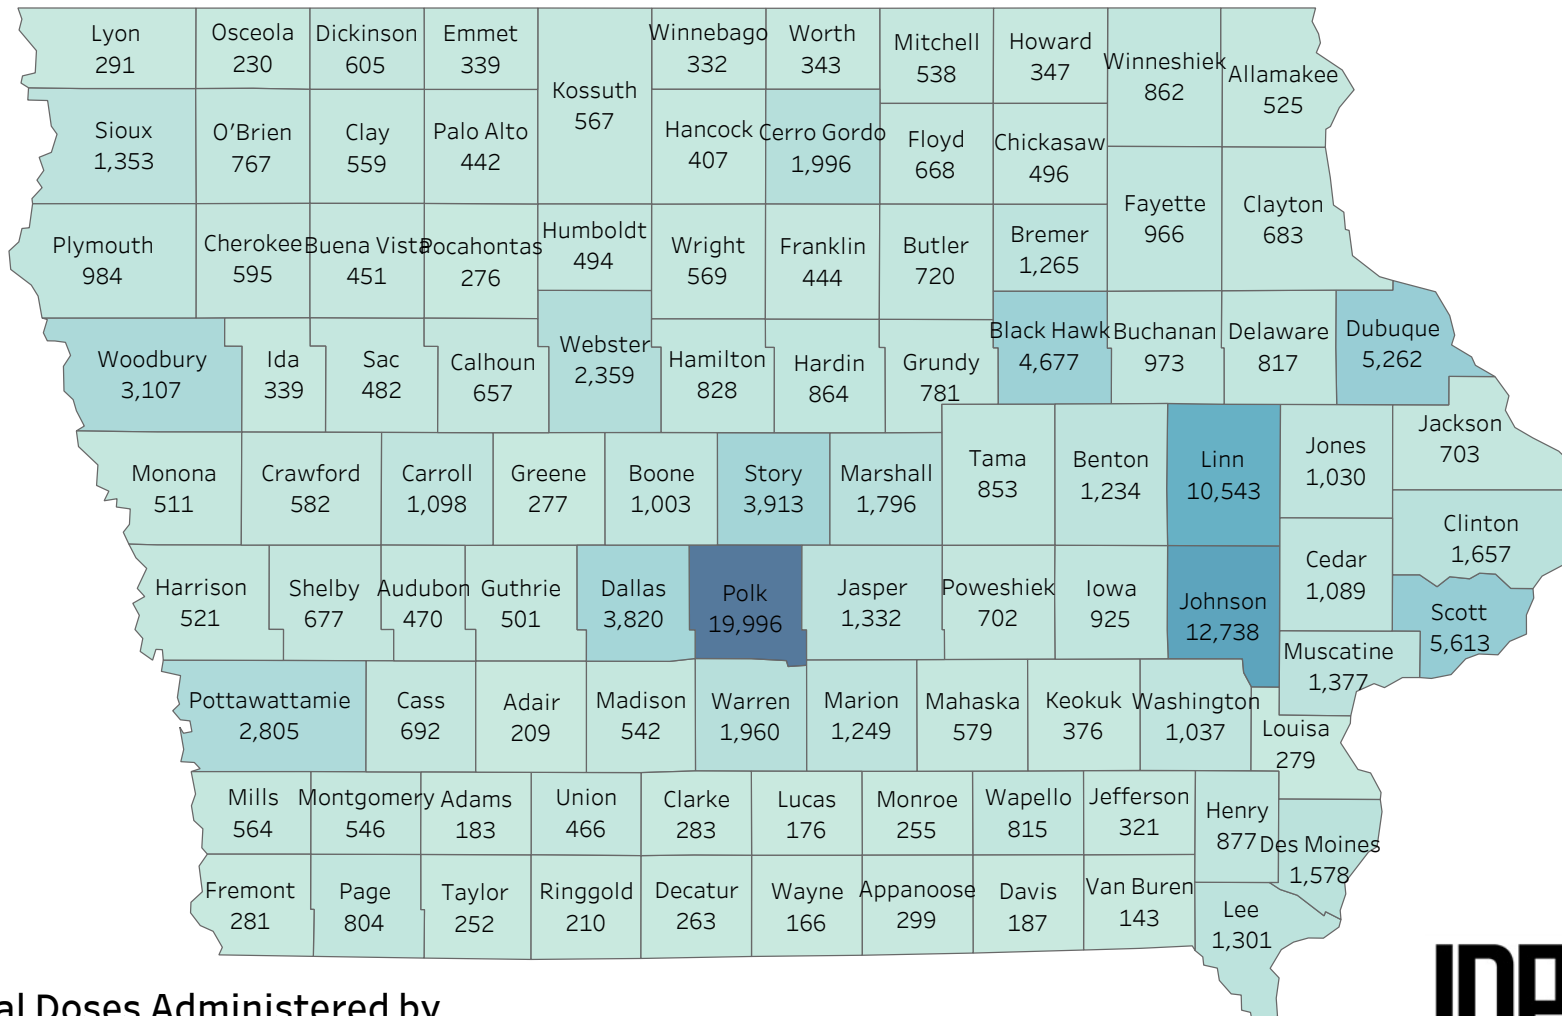

### Doses Administered by Vaccine Manufacturer:

Vaccine Manufacturer	
Moderna	69,597
Pfizer	73,017
Total	142,614

IRIS, Iowa Immunization Program. Data reported to IRIS as of 1/17/2021.  
Data subject to change due to ongoing reporting.

# Total Doses Administered by Recipient County of Residence

Total Doses Administered by  
Recipient County of Residence:

134,919

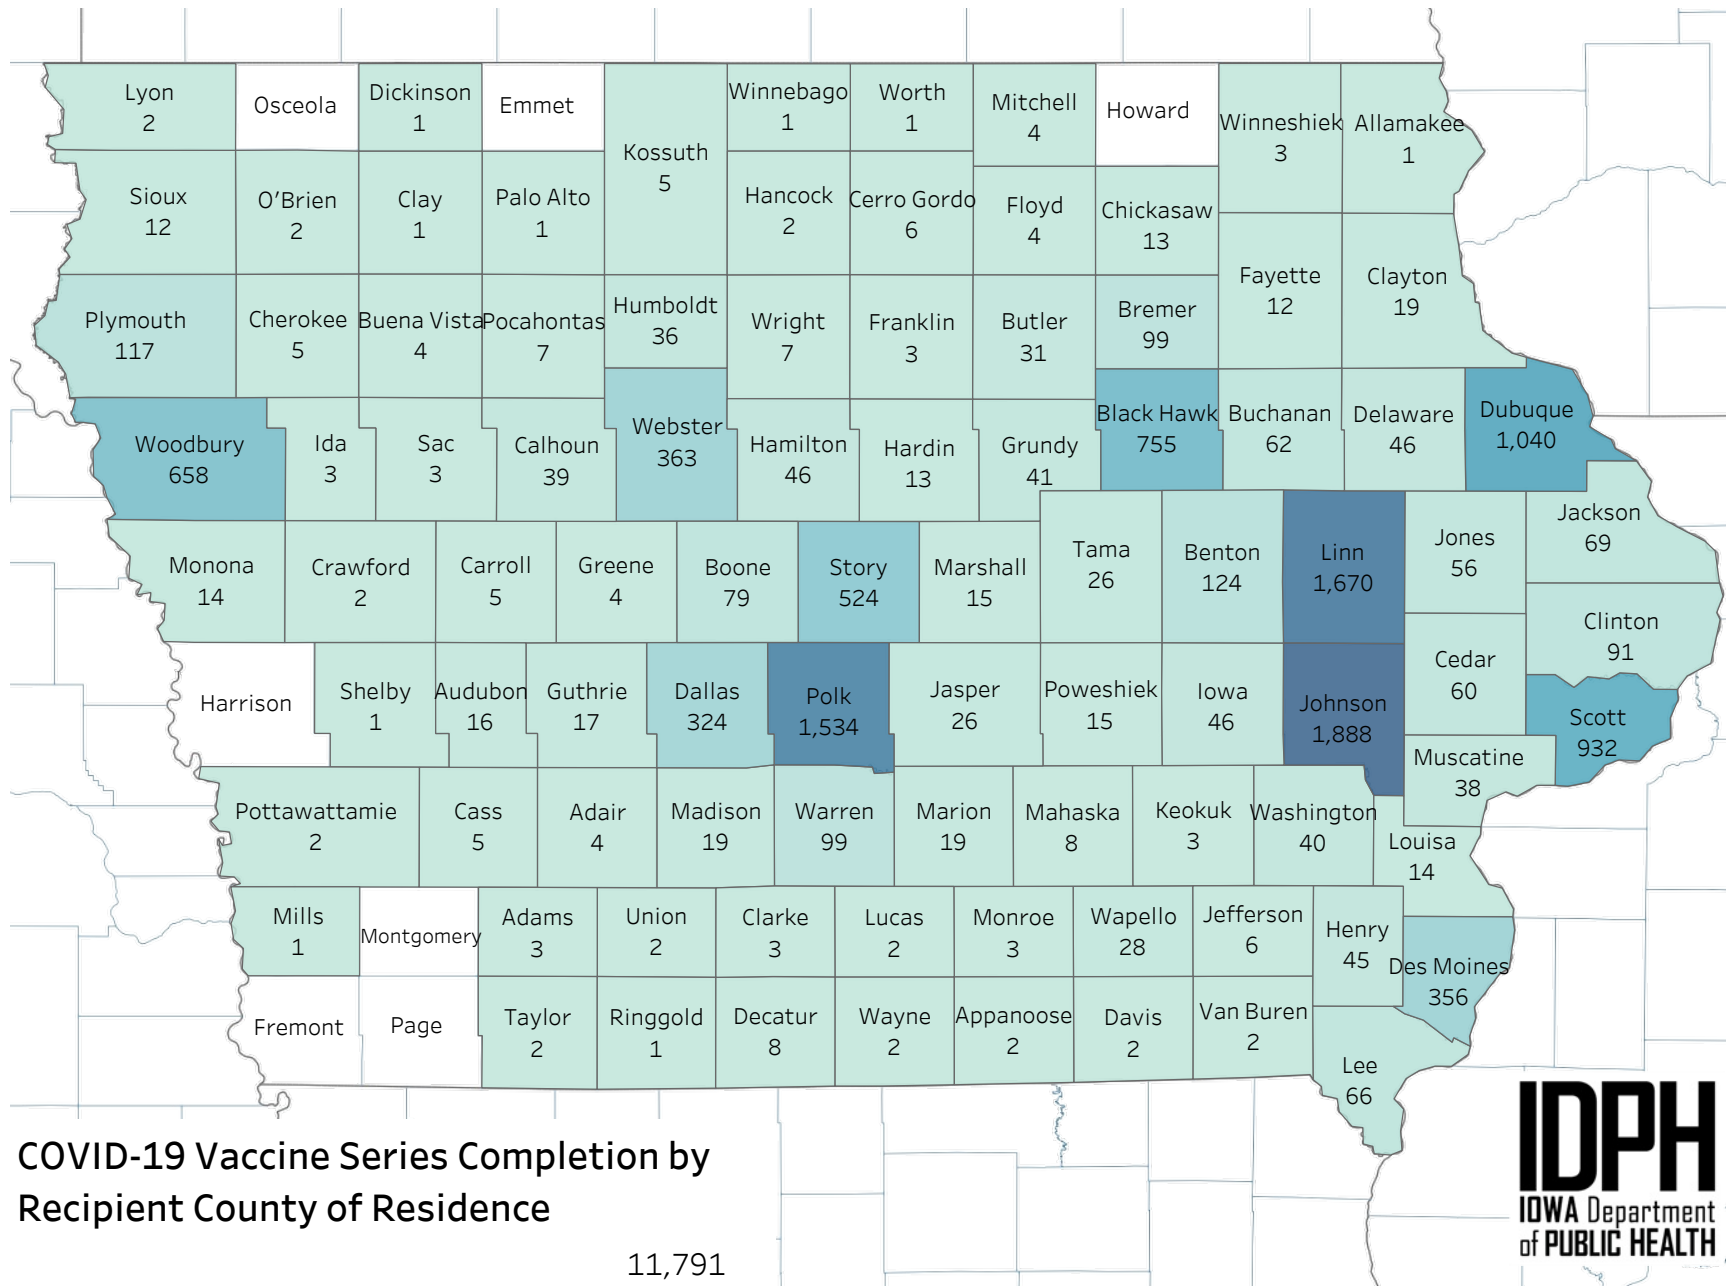

A map of Iowa divided into its 99 counties. Each county is labeled with its name and the number of COVID-19 cases. The counties are color-coded based on the number of cases: light green for fewer than 1,000 cases, medium blue for between 1,000 and 6,000 cases, and dark blue for more than 6,000 cases. Polk County has the highest number of cases at 26,293.

County	Cases	County	Cases	County	Cases
Lyon	180	Osceola	137	Dickinson	578
Sioux	1,071	O'Brien	644	Clay	923
Plymouth	394	Cherokee	539	Buena Vista	549

IRIS, Iowa Immunization Program. Data reported to IRIS as of 1/17/2021. Data subject to change due to ongoing reporting.

# COVID-19 Vaccine Series Completion by Recipient County of Residence

IRIS, Iowa Immunization Program. Data reported to IRIS as of 1/17/2021. Data subject to change due to ongoing reporting.

# COVID-19 Vaccine Series Completion by County of Vaccine Provider

IRIS, Iowa Immunization Program. Data reported to IRIS as of 1/17/2021. Data subject to change due to ongoing reporting.

## COVID-19 Vaccine Doses Administration Data January 15, 2021

### Iowa COVID-19 Vaccine Report

- Iowa healthcare providers administering COVID-19 vaccines are required to enroll in IRIS and report COVID-19 doses administered within 24 hours as part of the CDC COVID-19 Vaccination Program Provider Agreement.
- The Iowa Immunization Program uses data reported to the Immunization Registry Information System (IRIS) to track and monitor COVID-19 vaccine administration. The Iowa COVID-19 Vaccine Report will be updated daily using IRIS data.
- The Iowa COVID-19 Vaccine Report data is updated daily. Updated data is independent of the date of administration and will include doses reported outside the 24-hour required reporting period.
- Vaccine administered data previously reported will change as additional doses administered data is reported to IRIS.

### Data limitations

- IRIS receives vaccine administered information on an ongoing basis. Vaccine administration data will continuously change as vaccine administration is reported to IRIS.
- IRIS does not capture information related to occupation or risk factors such as underlying health conditions. It is not possible to include these factors in data reports.

### Measure Descriptions

- **Total Doses Administered in Iowa:** Number of COVID-19 vaccines administered by healthcare providers as reported to IRIS, including in-state and out-of-state residents. Out-of-state residents may be vaccinated in Iowa if they meet the current phase criteria, such as an out-of-state healthcare provider working in Iowa.
- **Doses Administered to Iowa Residents:** Number of COVID-19 vaccines administered by healthcare providers to individuals with an Iowa address as reported to IRIS.
- **Doses Administered by County of Vaccine Provider:** Number of COVID-19 vaccines administered by county of the COVID-19 vaccine provider location. This map indicates where COVID-19 vaccines have been administered in the state of Iowa.
- COVID-19 Vaccine Series Initiated and COVID-19 Vaccine Series Completed are distinct and non-overlapping categories, with the following measure definitions:
  - **COVID-19 Vaccine Series Initiated:** Number of individuals that have received one dose of the COVID-19 vaccine series, but have not completed the series. This category excludes individuals that have received a completed COVID-19 vaccine series.
  - **COVID-19 Vaccine Series Completed:** Number of individuals that have received all of the required doses of the COVID-19 vaccine series. This category excludes individuals that have not received a complete COVID-19 vaccine series.
